Our "Stand" on Depositions

Dr. Dennis Teal, D.C. *July 2009*

Our Doctors Stand Behind Their Reports 100%

In depositions, our focus is for the doctor to verbally draw a picture in the jurors mind as to the patient's injury and that treatment which is reasonable. Additionally, the doctor must be adept at explaining and supporting with documentation as to why some of the treatment rendered would not be reasonable, if that is the case. The doctor is expected to and should maintain as even temperament as possible and yet be firm in not letting the attorney twist or change the meaning of the doctor's testimony. In short the doctor must tell the truth, answer each question fairly, be the independent observer of fact and apply the thrust of scientific literature to the case without regard to either side in the case. To do otherwise reflects poorly on the doctor as an independent consultant.

NAC, Inc. is the leading provider in designating Expert Witnesses. Our extensive network of experts provides you with a wide range of services, such as, top-notch Physician Peer Reviews, determining medical necessity, length of treatment, causal relationship, radiological reviews of films, as well as offering Controverting Affidavits. We pride ourselves on our quality work and quick turn-around time service. If there is anything we can offer to make your firm run smoother we will do all that we can to make it happen.

FILM DUPLICATION

Having the films for your case on hand can be essential, especially when multiple reviews are needed. Checking out the originals can be risky and inconvenient. Why not let NAC have them duplicated for you so that you can have your own set?

NEED AN EXPERT WITNESS OR MEDICAL EXPERT TO TESTIFY?

Let North American Consultants be your source for providing those experts!

All of our experts are under contract to testify in conjunction with their reports. Throughout our 15 year history we have never failed to testify and have always defeated the plaintiffs' *Kelly-Frye* test when challenged.

Due to contracts we have with our physicians, we are able to offer a volume discount savings on our cost of reviews that is substantially lower than if you hired the physician directly. This also applies to deposition fees.
